DLithe

Be Agile..Be in Demand

DLithe Consultancy Services Pvt. Ltd.

About Us

Our Vision & Mission

- To support business functions to achieve Customer Experience and Operational Excellence.
- To build an agile workforce that is competent in Domain, Technology & Personality, catering towards global industry needs.
- We are committed to providing cost-effective quality services to corporates and academics to achieve their goals.

DLithe™
Be Agile..Be in Demand

Since inception
2018

" Lead by industry professionals with two decades of experience in IT Delivery Excellence, Human Resource Management, serving Academics and Corporate "
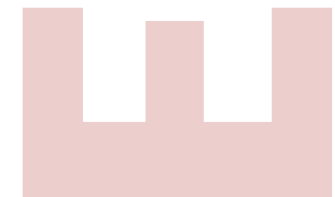

25,000+
RESOURCES MENTORED

1,50,000+
TRAINING HOURS

20+
ACADEMIC INSTITUTIONS

8
DEVELOPMENT CENTRES

Technical Specialisation

AGILE
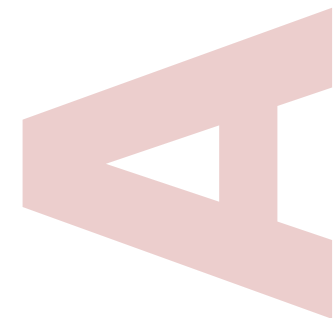

INTERNET OF THINGS

JAVA SPRING FRAMEWORK

.NET FULLSTACK

EMBEDDED SYSTEMS

CYBERSECURITY

AI ML DATA SCIENCE

BLOCKCHAIN

FLUTTER

CREO/ PRODUCT DESIGN

Competency Development

Live Sessions
Placement Training

Quantitative Aptitude
Gaming Aptitude
Verbal Reasoning
Pseudo Code
Coding & testing
Resume building
Mock GD, Mock Interviews

Tool Based Practice

Unlimited practice tests using AI based online tool

Circuit and Non Circuit Branch
Department Needs

Internship's
Lab setup
AICTE HTTP
Workshop's
FDP's
Course design
Product development

Outcome Based

- Automata, Ninja, Codevita
- Hackerrank, Hackerearth
- Github / Repositories
- Technical blogs
- LinkedIn
- Demo's
- Startup idea's

Services to Corporate

DLithe™
Be Agile..Be in Demand

tietoevry

Upskilled and onboarded 150+ candidates on Full stack- Java & .Net, Database stream, Automation Testing, Cybersecurity

C-SQUARE

Migrate the legacy middle layer to Apache Kafka.

Softvent Services Pvt.Ltd *Concept Oriented.*

Bootcamps in VB Stream

TREBOUND

Built a Mobile application OHW- Health App using Flutter

DATALYZER International® Partners in Continuous Improvement
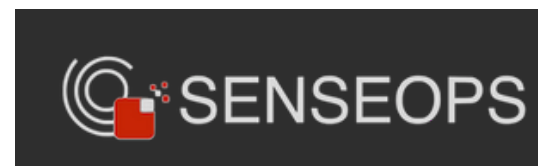

Fresher's induction - Bootcamps in .NET Stream

Onboarded and trained numerous resources while meeting the expectations of the client

Meal Meister

mobiezy

SENSEOPS

relex *reliable expertise*

Renewin

Services to Academics

DLithe™
Be Agile..Be in Demand

Technical Trainings from 3rd Semester

Microcntroller Lab set up

COE set up at

Internship on IoT, Data Science, Front end development, Cyber Secuirty and many more

Cyber Secuirty lab set up at Mangalore University

Cyber Secuirty lab set up at BMSIT, Bengaluru

Trained thousands of students through Pre-Placement training

innovation.

Being a Technology oriented company, we progressed towards **Product development** sector after understanding the need of **Innovation & R&D**

Our vision is to bring out the potential innovative solutions towards industry 4.0 and 5.0 transformation that will contribute to enhancing customer experience with cost effective products to the industry players and end users.

io Cube
IoT DevKit Module[WiFi]
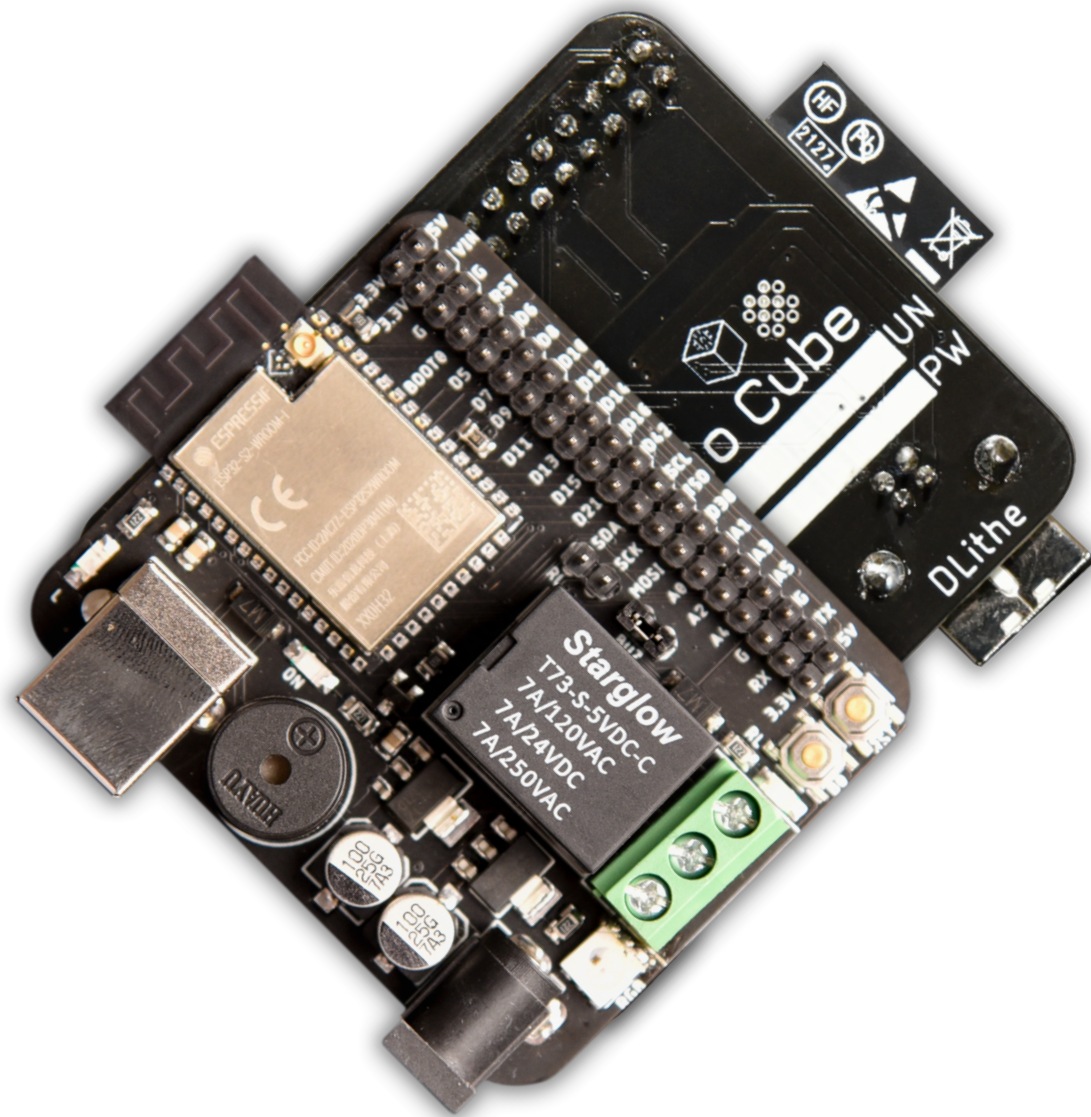

Rapidly and easily get started with learning IoT using the io Cube Wifi Devkit, which have a great appeal to STEM learners, enthusiasts, Makers, Engineers and schools alike. This board can be used to teach students about fundamentals of programming, Interfacing sensors, Cloud connectivity, Sensor node, Edge IoT, Automation and Robotics.

SoC
ESP32-S2 with 40 GPIOs

Clock Frequency
Up to 240 MHz

**Memory**
320 kB SRAM, 128 kB ROM, 16 KB RTC

Built-in
Relay Buzzer & Neopixel

Security
RSA-3072-based trusted application boot

DLM-1.0
ARM Cortex M3 Based
MCU Trainer Kit

DLM-1.0 board ideal for Understanding Architecture of ARM Microprocessors, GPIO, Peripherals, Sensor interfacing, Communication protocols and other demanding application areas where ease of access and technology support with in-circuit hardware upgradeability is of very important.

ADC input

10 K POT

Digital Input

Tactile Switches 4x4 keypad

System Time

RTC DS3231

Clock Speed

84 MHz

Digital Output

LEDs, Alphanumeric LCD, Buzzer

A4988
Stepper Driver

Innovation in Progress

- R&D of Robotic Surgical Arm for dissecting human body anatomy and cavity at DSU-Trichy

- Robotic massager Arm with human touch using pneumatic based Artificial muscles

- Conceptualization of humanoid

- io Cube IoT Devkit 2.0

- Development of Virtual Reality based real estate and interior application for

- Implementation of IoT Based Solar powered mobile Cold Storage

- IoT enabled dog feeder, BMSIT Bengaluru

- IoT Based kitchen cabinet and the method of stock monitoring
